

a plurality of fins extending from said second surface of said base;

a chamber disposed between said first surface and said second surface of said base;

a divider disposed within said chamber and adjacent said first surface;

a cooling fluid disposed within said chamber;

a pump proximate an edge of said base;

an inlet of said pump being proximate said first surface of said base to receive said cooling fluid in said chamber that is proximate said first surface; and

an outlet of said pump that pumps said cooling fluid over a first surface of said divider.
